## *Good Division*

Draw a line in such a way that the rectangle is split into two regions containing the same numbers.

What is the sum of the numbers in each region?
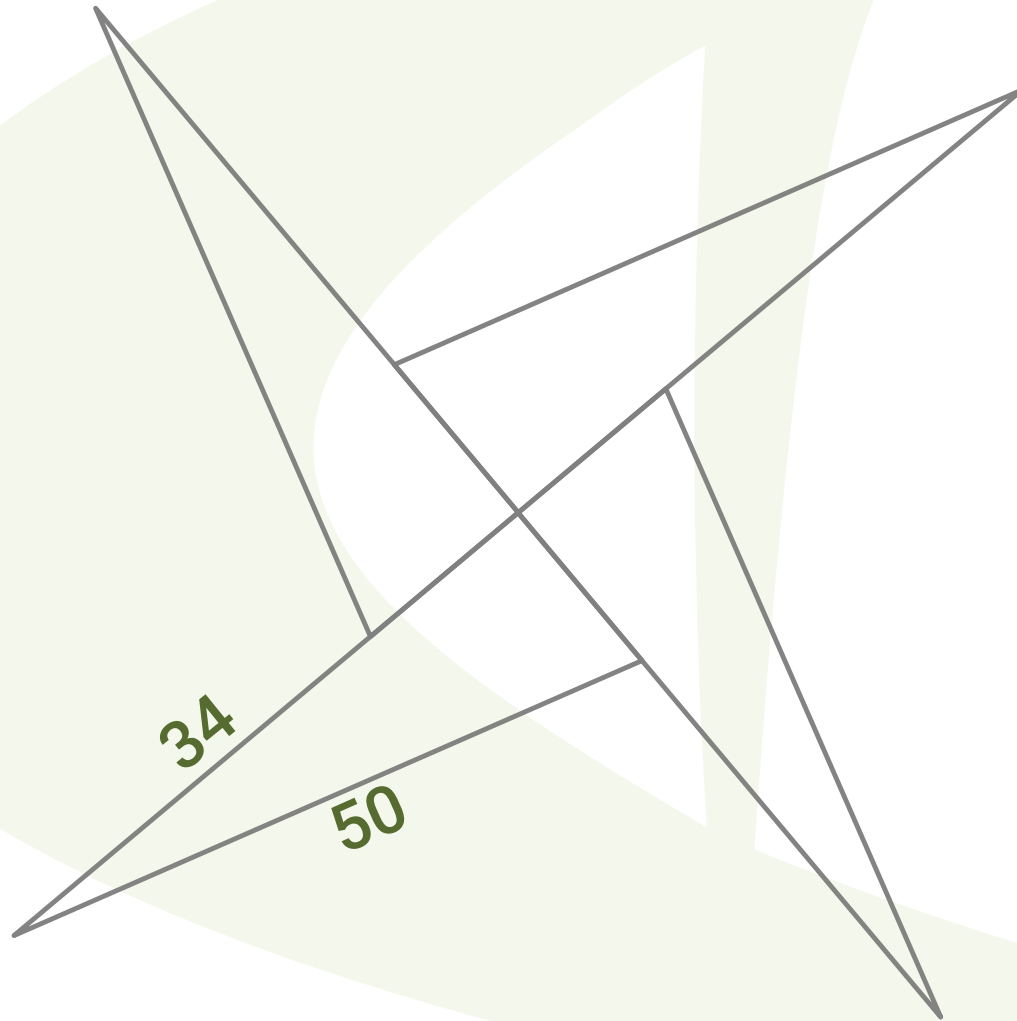

## *Sequences*

If you continue each sequence, in which one(s) will the number *1000* appear?

A.   1, 4, 7, 10, 13, …

B.    6, 13, 20, 27, 34, …

C.    8, 17, 26, 35, 44, …

D.   10, 21, 32, 43, 54, …

E.   11, 23, 35, 47, 59, …

## Quick Geometry

34

50

The star is symmetrical and is formed by four congruent right triangles. Determine its area.
