

Circles

In how many circles is the number 2?

In how many circles is the number 10?

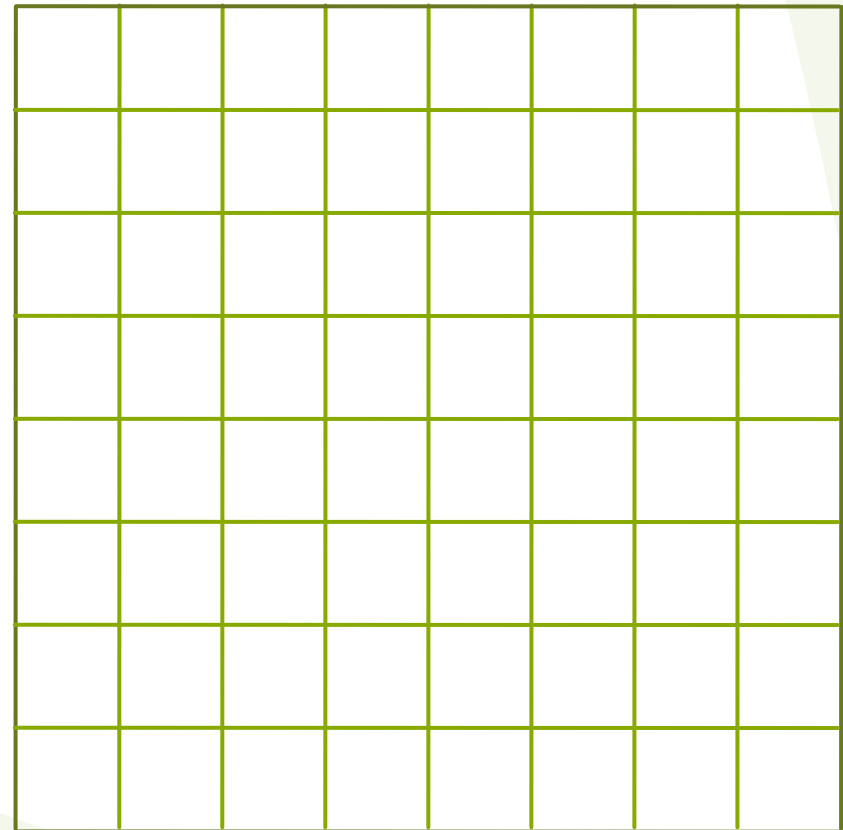

Which number is in all the circles?

Coloring

Sonia colors an 8x8 grid as follows:

- One-quarter of the squares are blue.
- One-third of the remaining squares are green.
- Half of the remaining squares are yellow.
- The remaining squares are red.

Is it true that the number of squares of each of the four colors is the same?

Quick Geometry Semicircle

Semicircle with center C.

Calculate the exact value
of the shaded area.
